Re: Permit Application

Danielle:

Enclosed are the permit applications for our Missouri River Dredging Permits. We have kept the permits separate for business reasons. We have a Supply Agreement with one of our customers and it requires us to keep them separate. We have not made any changes to our permit conditions.

Please note that earlier in March 2025, we requested additional information from the US Army Corps of Engineers regarding the Corps' survey methodology and analysis of the riverbed data since 2009. We received additional information from the Corps on March 27, 2025, and are still working to analyze this data. We reserve the right to amend or supplement this application in light of the information provided by the Corps or from our analysis of such data.

If you have any questions or need additional information, let me know.

Thanks,

Brian Viehmann
