## **PUBLIC NOTICE**

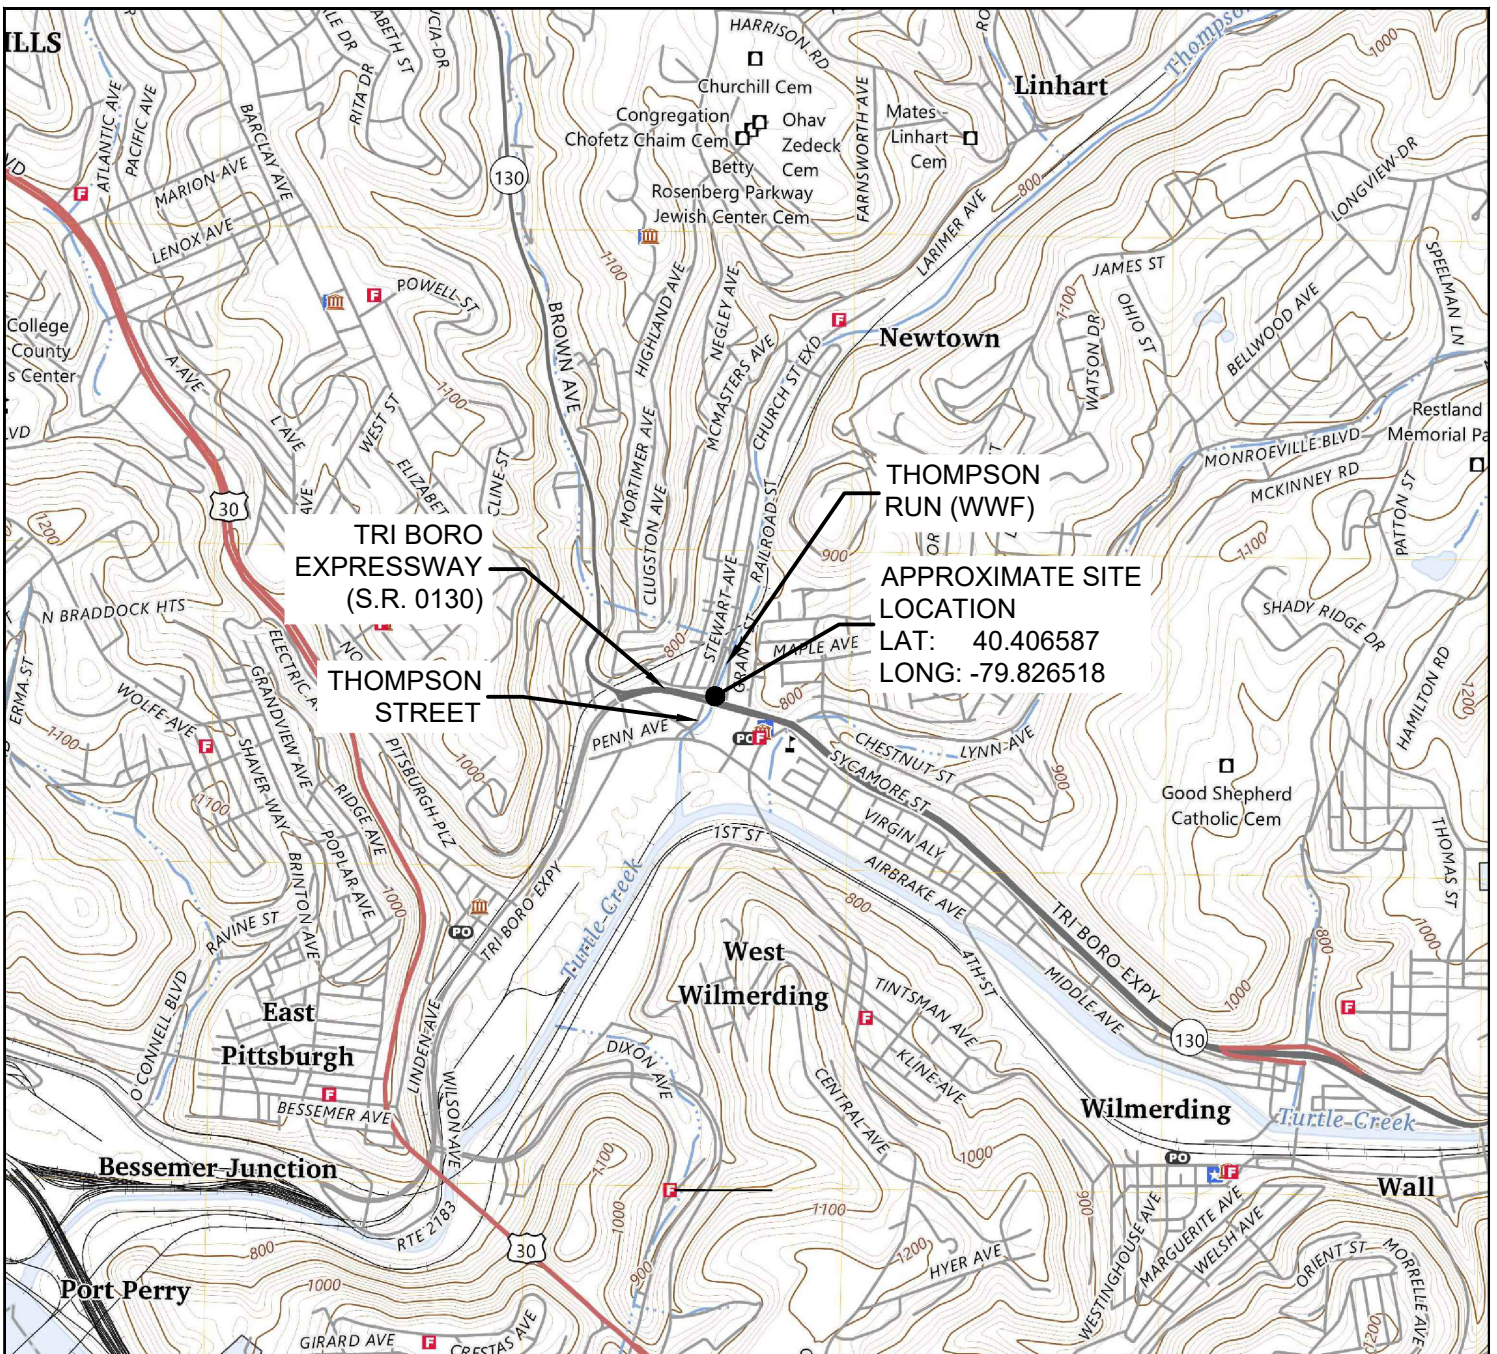

**Section 408 Request to Alter the Turtle Creek Local Protection  
Project for the Replacement of Natural Gas Lines by Peoples  
Natural Gas Company, LLC  
Allegheny County,  
Pennsylvania  
Section 408 Request No. 408-LRP-2025-0018**

The U.S. Army Corps of Engineers (USACE) Pittsburgh District is evaluating a proposed alteration to the Turtle Creek Local Protection Project (LPP) by Peoples Natural Gas Company, LLC (PNG). PNG has submitted a request under Section 14 of the Rivers and Harbors Act of 1899 (33 U.S.C. Section 408) to the Pittsburgh District to alter the Turtle Creek LPP (approximate coordinates 40.406587° N, 79.826518° W) for the replacement of approximately 1,270 linear feet of bare steel natural gas pipeline. A new 12-inch and a 6-inch plastic line will be installed below Thompson Run via Horizontal Directional Drilling methods. Approximately 75 feet of each line below Thompson Run is subject to this Section 408 review.

The Pittsburgh District is currently performing a Section 408 review of the proposed alteration that includes engineering, environmental (per the National Environmental Policy Act, 42 USC 4321 *et seq.*), and real estate considerations. Permission to alter the Turtle Creek LPP will only be granted if review determines that the alteration will not be injurious to the public interest or impair the usefulness of the LPP.

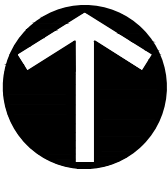

The Pittsburgh District invites the public to provide comments associated with this Section 408 evaluation. The Pittsburgh District will consider all submissions received before the expiration date of the public notice period. The nature or scope of the proposal may be changed upon consideration of the comments received.

**Comments can be submitted to the address posted at the top of this notice or to Benjamin.M.Sakmar@usace.army.mil. Comments must be received by 26 April 2026 to ensure consideration.**
